Wireless Audio

Jameco Part Number 210981

SoundLink™
Wireless Audio
Delivery System

Model No.
6003

Key Benefits

Enjoy Internet audio and MP3s virtually anywhere
Listen to MP3s, Internet radio, and more from your PC while you're lounging on your couch in your den or enjoying a barbecue out back with guests.

Customize your setup to fit your lifestyle
- PC/MP3 Player to Home Stereo
- Home Stereo/CD Player to FM Radio
- The possibilities are endless!

Long-range wireless transmission up to 1,000 feet*
*With a wireless signal range of up to 1,000 feet from receiver unit to transmitter unit, you won't be limited by messy wires or stereo cables.**

Why Limit Your Music's Reach? Move The Music Where You Want It To Be!

Release your MP3s from the confines of your computer and listen to them on your stereo... in another room. Put your music where you want it. Have the convenience of storing your music library on your computer or MP3 player and use it as your own personal jukebox while listening to the playback on your stereo's receiver or portable FM radio.

Simply plug the SoundLink transmitter unit into your music source (PC/MP3 player, DVD, etc.) and either plug the SoundLink receiver unit into your stereo's audio input or tune your FM receiver to 88.1 or 88.3.

Integrate your PC's music library into the mainstream of your household with wireless convenience by U.S. Robotics, the brand name you've already come to trust and rely upon.

Internet music with wireless ease

U.S.Robotics®

Wireless Audio

SoundLink™
Wireless Audio
Delivery System

U.S. Robotics helped you get on the Internet, and we're keeping you connected with cutting edge technology. We're proud of our role in the history of the Internet, but even prouder of our role in the future – broadband, wireless, and beyond. Our entire team, from customer support to engineering, is dedicated to keeping people in contact worldwide – with information, entertainment, and each other. Find out more at www.usr.com.
